# T&G LAUNCH NEW PRODUCTS 2017

The new products for 2017 have been designed to reflect the trend for individuality and creating that special experience and atmosphere.

T&G have launched a collection of exciting products incorporating new ideas, finishes and styling. More colour, more variety, more innovation and more personalisation to create interest and desire. It's all about being different, unique and creating an exciting eating experience.

The growth of healthy eating, fresh produce and quirky presentation have been some of the most important influences for the new T&G products, enhancing the desire for relaxed dining and a casual atmosphere.

T&G's product range includes serving boards, bowls and baskets, blocks and boxes, trays and platters, tabletop, CrushGrind® salt, pepper and spice mills, Classic mills, glass jars, trolleys, utensils and much more.

Issued January 2017

A taste of our new catering collection for 2017.

## ABOUT T&G

Established in 1975, T&G is a family run business, still managed by one of the founders (Patrick Gardner, MD) and based in Portishead, Bristol, United Kingdom.

All T&G products start from a blank sheet of paper, developing and creating every product to ensure that it is the best that it can be, all designed here in the UK.

We designed the T&G curved wooden spatula in the 1990's and our CrushGrind® mills have won many awards. Our FSC® certified beech "TV boards" as used in many TV cookery programmes, have been an industry icon since 1979. All these products and many more have gone on to become design classics. With over 40 years in business there aren't that many kitchens, bars & restaurants that won't have a T&G product!

We cannot emphasise enough how much care and attention goes into designing and manufacturing our products and how much we obsess about every detail. We are passionate about our brand and products.

T&G can also produce bespoke and branded products to order, subject to minimum quantities and lead times.

T&G are exhibiting at The Great Hospitality Show, NEC Birmingham, STAND 518.
