# About T&G

Established in 1975, T&G is a family run business, still managed by one of the founders (Patrick Gardner, MD) and based in Portishead, Bristol, United Kingdom.

All T&G products start from a blank sheet of paper, developing and creating every product to ensure that it is the best that it can be.

We designed the T&G curved wooden spatula in the 1990's and our CrushGrind® Apollo mill has won many awards. Our FSC® certified beech "TV boards" as used on many TV cookery programmes, have been an industry icon since 1979. All these products and many more have gone on to become design classics. With over 41 years in business, there aren't many kitchens that won't have one of our products!

We cannot emphasise enough how much care and attention goes into designing and manufacturing our products and how much we obsess about every detail. We are passionate about our brand and products.

T&G are delighted to be exhibiting at Spring Fair 2017. We would be happy to provide digital images or samples of any of the products featured in the Press Pack.
